

Светильник 12V 9W CL3001 RGB

Product Instruction:

LED ceiling lamp adopt 1W high power LED as light source, aluminium alloy housing, the advantage: low heat sinking, low power consumption, long life span and so on. The view angle can be choosed from 15-60 degree. It is RGB (3 in 1) full colour, widely used for commercial building, meeting room, bars, slap-up recreation place, home decoration and so on. Dimmerable ceiling light can be dimmered limitless by our dimmer. It is controlled by DMX Controller, which can reach folowing changing, chase cganging, flash changing adn so on, when there is no controller, it will be dreamlike colour automaticly.

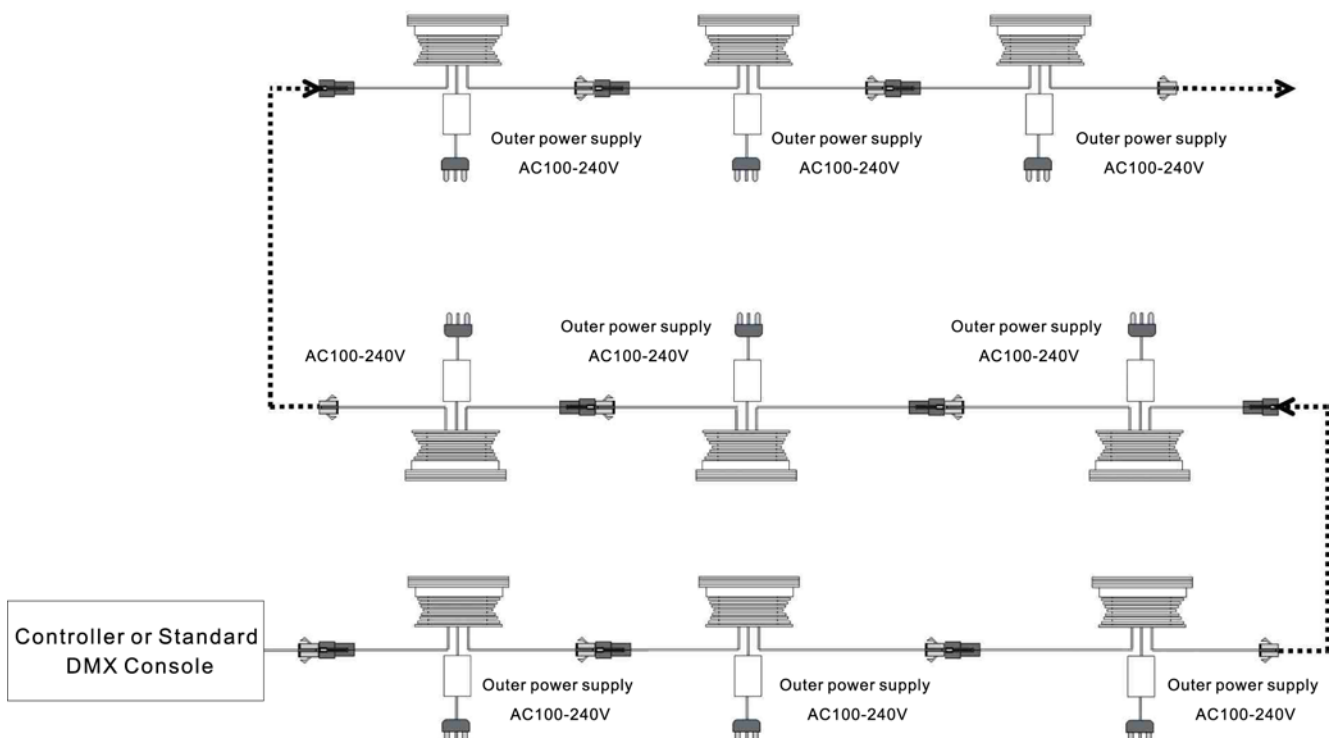

Product Features:

1. The lamp can be autocoded in series by coder.
2. Outer RGB controller can raelise many different colour changing and brightnrs can be dimmered.
3. Many lamps can be connected and raelise flow changing, chase changing and so on.
4. DMX512 control system can built inside of lamp.
5. Dreamlike colour changing automaticly without controller.

Main Technical Parameters:

Power (W)	Colour	Voltage (V)	Size (mm)	Material	Projection distance (m)	Beam Angle (°)
9 (3x3W)	R/G/B (3 chips in 1)	DC12V	Ø 137x62	Aluminium alloy	>5	25

Remark: Each lamp need an input AC110-240V/output DC12V transformer
